## JEWELRY REPLACEMENT

ERS Replacement has been replacing lost or stolen jewelry items since 1987. We understand the disappointment you feel, the sentimental value that is lost, and the personal nature of trying to get that jewelry replaced.

Christine Cardo has been ERS Replacement's Staff Gemologist and Lead Jeweler since 2004. Engaged in the jewelry business since 1975, she holds a Graduate Gemologist Degree from the world leader in Gemology, the Gemological Institute of America. Her experience includes positions as an appraiser, estate buyer and design consultant, and she has worked in both retail and wholesale jewelry operations. With ERS satellite offices in Chicago, New York, Los Angeles, New Jersey, Connecticut and Missouri, as well as operating her own successful jewelry business, Christine has multiple resources to ensure prompt, outstanding service.

Every ERS replacement begins with a consultation with Christine to identify your personal needs. From pictures, appraisals and/or descriptions, Christine will work to find the right replacement for you. If that entails a custom re-creation, a graphic rendering will be created (see photo) for your approval prior to casting in the precious metal.

In the final stage of production, our highly skilled Master Goldsmiths have over 30 years experience demonstrating that same care and attention to detail. ERS Replacement guarantees its quality and your complete satisfaction with every item.
